THE NEWS.

The telegraphic summary of this morning will be found interesting, especially that portion of it which relates to Great Britain and Ireland. The friends of the United Kingdom will be glad to learn that Irish reform is likely to meet with earnest and practical treatment at the hands of both Lords and Commons, that a growing disposition to go to the root of the matter is manifested by the British public, and that His Royal Highness the Prince of Wales has at length decided to cultivate a more intimate relationship with an important part of his royal mother's subjects. We have always felt that Ireland was not fairly dealt with in this regard. A warm-hearted people like the Irish could not but feel the neglect; and it is earnestly to be hoped that the proposed visit of the Prince of Wales will prove to be but one of a series of Royal visits, which will be hereafter no less frequent to Ireland than to Scotland. The steady advance observable in the British public towards political progress and reform is one of the most promising signs of the times. Much interest will be felt in the remarkable discussion in the House of Commons, on the Alabama international question. Nothing could more strikingly illustrate the high and dignified tone of the British mind; and, perhaps, we might add, nothing could well be in more marked contrast with the spirit in which similar questions are generally approached in the American House of Representatives. It is very evident that if the Alabama affair ends in war it will be the fault of America. The news from Washington is far from uninteresting. It is truly a notable circumstance that the Rebel President, who appeared to be in danger at one time of being hanged without judge or jury, is allowed to go unpunished—untried, while the lawful President, who has honestly endeavored to administer according to the Constitution, and who has done all in his power to bring together and reunite the rebellious States, is impeached and on trial. Our exchanges are to the 26th Jan., and are politically uninteresting. The trial of Sir Culling Eardley, for bigamy, resulted in a verdict of guilty, and a sentence of eighteen months' imprisonment, with hard labor. The safety of Dr. Livingstone would appear to be placed beyond all doubt. General Sir John Burgoyne has retired from active service at the War Office, retaining full pay.

JUDICIAL.—The Government Gazette announces that on Thursday, the 19th inst. (to-morrow) "a Court of General Assize and Gaol delivery will be held at the Court House, New Westminster, before the Honorable Matthew Baillie Begbie." It also announces that a similar performance will take place at Victoria on Monday, the 23d inst. "before the Honorable Joseph Needham, Chief Justice." Apart from the ordinary import of these notices, the wording of them would seem to imply that nothing has yet been done to define the jurisdiction or status of the two Supreme Court Judges of the Colony. Surely we are not to be allowed to drift through another season with the Judges at "loggerheads," and two Judiciaries at "sixes and sevens." Such a state of things is not only unfair and painfully embarrassing to the Judges themselves and most inconvenient and vexatious to litigants; but it is calculated to lower that veneration and respect which the majesty of the Law, by impairing its constitution, its bulwark of strength.

ECCLIASTICAL NEWS.—The Wesleyan District Meeting terminated its session at Victoria last week. The following are the stations for the ensuing year:—Victoria, Rev. E. White; Nanaimo, Rev. A. Browning; New Westminster and Cariboo to be filled by Missionaries from Canada; Indian tribes, Mr. Thomas Crosbie. Dr. Evans returns to Canada. The Rev. Mr. White, our local readers will be glad to learn, will not leave this place until the arrival of his successor, which will in all probability, not be for some months yet. There is every probability of Cariboo being supplied this year. Thos. Cunningham, Esq. having liberally come forward and offered to the British Columbian Missionary Society a donation of \$1500, in three annual instalments, upon condition that a resident Missionary is maintained at Cariboo.

OFFICIAL APPOINTMENTS.—The following notice appeared in Saturday's Gazette:—

COLONIAL SECRETARY'S OFFICE.
9th March, 1868.

The Governor has been pleased to appoint the undermentioned Gentlemen to be provisionally Members of the Legislative Council of British Columbia.

Robert Kerr, acting as Treasurer during the approaching Session.

Warner Reeve Spalding, as Magistrate to represent Nanaimo.

Thomas Elwyn, as Magistrate to represent Cariboo, in the place of the Honorable Charles Brew, resigned.

By His Excellency's Command.

WILLIAM A. G. YOUNG

PREMATURE.—In congratulating our fellow-colonists upon their improved foreign postal relations, a few weeks ago, it would appear that we were somewhat premature, the following having been published in Saturday's Gazette:—

For the present, Letters and Papers can be prepaid in Colonial Stamps for the United Kingdom only.

Mail matter for or from other Countries will be subject to the old rates of Colonial and United States postage, both when mailed or delivered.

The previous notices in the Gazette, dated 17th January, and 6th February, are withdrawn.

ARTHUR T. BUSHBY,
Acting Postmaster General.

ON DIR.—That both Mr. Franklin and Mr. Spalding will have seats in the Legislative Council, and that New Westminster will be given an additional member. Victoria, town and district, has four members; surely New Westminster is, in common justice, entitled to half that number. We hear that neither Mr. Sanders nor Mr. Cornwall will come down to the Session, so that there is still room.

PRISON RETURNS.—We are indebted to C. J. Prichard, Esq., Governor of the Gaol, for the following abstract of Prison Returns for the month of February, 1868:—In Gaol on the 1st of the month, 17; received during the month, 8; discharged during the month, 6; in Gaol on the 29th of the month, 19.

A HANDSOME GIFT.—Upon the designation of the Rev. John Postelthwaite to the intended Bishopric of New Westminster, the congregation of that gentleman presented him with a very beautiful Communion Service. The Service arrived by the last steamer, having been presented to Holy Trinity church by the Rev. Mr. Postelthwaite.

GATHERING IN.—The members of the Legislative Council are gathering in to the Capital. The Hon. Messrs. Young, Hamley, and Walkem came up by the Enterprise on Monday. A number more are expected by the Isabel, to-day, and the remainder will probably come by the Enterprise on Friday.

"GOD" FOR MARCH has been laid on our table by Messrs. Clarkson & Co., Booksellers and Stationers, of this City, and it ought to be upon the table of every family. In fashion-plates and patterns the present number fully maintains the reputation of the Magazine.

THE NEW WESTMINSTER ASSIZES open to-morrow at 11 o'clock. We understand there are no less than eight criminal cases on the docket; but it is highly improbable that all these cases will come before a petit jury.

FROM VICTORIA.—The str. Enterprise, Capt. Swanson, arrived from Victoria on Monday evening, bringing our Eastern Mails. She left again yesterday morning, and will, we understand, be back on Friday.

READY FOR WORK.—The steamer Lilloet has undergone a thorough course of repairs and is now in excellent order for the spring trade. She will not come up till navigation opens through to Yale.

FOR YALE.—The Orford was to have left for Yale to-day, but owing to passengers and freight having held over at Victoria it is improbable she will start before Saturday.

EDITORIAL CHANGE.—We understand that Mr. Leigh Harnett has been duly installed as Editor of the Victoria Colonist. Any change must be for the better.

LEGISLATIVE DINNER.—The members of the Legislative Council will dine at Government House on Friday evening.

KOOTENAY.—A mail for Kootenay will be despatched by the first steamer or going up river.

AYER'S MEDICINES.

This peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein the vital forces in their vigorous action, and the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children into the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcersous cores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S ALEXANDER ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies have failed to afford relief. These cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alternative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it. We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S CHERRY PECTORAL.

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all druggists everywhere.

WEDNESDAY, MARCH 18, 1868.

TELEGRAPHIC SUMMARY.

EUROPE.

(DATE TO 11TH MARCH.)

In the House of Commons on the night of the 6th, Lefevre called up the Alabama claims and urged their settlement on the plan proposed by the American Government. All future negotiations, he said, would not add to the complications already existing. While he regarded a war between the two countries as unlikely, he thought that all needless irritation should be shunned. Lord Stanley was pleased at the pacific tone of Lefevre and the conciliatory spirit of Adams, the American Minister. He claimed to be entirely neutral, but no neutrality would have pleased America. What she wanted was neutrality coupled with warm sympathy and support. How could England have refused to recognize a war which Seward had already announced to be a civil war? He thought friendly arrangements still practicable. The friendly reception of Thornton at Washington was a pledge of peace. Ministers are ready to leave the question to the people of the entire world. Foster denied Seward's showing of the case and thought that if any influential statesman had been sent to Washington the dispute might have been readily adjusted. Stuart contended that while England had not violated the law of neutrality the nation was rash, unfriendly and her course unprecedented. Reparation was due to the United States, and he advised a mixed Convention to settle the question. Gladstone, while doubting if reparation was due, thought the matter should be settled forthwith or given to an umpire. The country would support Stanley in a just settlement. The debate ended here. Nearly all the papers have editorials this morning on the subject of the remarkable debate in the House of Commons last evening on the Alabama question. The Times says the debate must convince the United States Government that England wishes to settle this case by law, in the American sense, and that the failure of Great Britain to refer the claims to arbitration is due to no desire to shun her just obligations. Seward has only to meet Lord Stanley in a like spirit to lead to an understanding. The articles in other journals are generally in the same tone as that in the Times. It was reported in London that a proposition was recently made by Stanley to submit the Alabama claims to arbitration by Prussia, and he was willing to entertain a proposition so far as it applied to the question of indemnity, but refused to submit the other points in dispute. Fenianism continues to claim its share of attention both in and out of Parliament. The Fenian prisoners captured recently at Dunganon are offered to be pardoned in consideration that they would give their parole to leave the kingdom. It is further reported that the prisoners unanimously refused to assent to this proposition. A double guard has been placed round Newgate, where Burke, Casey and Shaw are confined. Their trial has been set for next month. On the 10th, in the House of Commons, John Francis Maguire, from Cork, said that though Ireland was a part of the British Empire, and is now peaceful, the personal liberty of every man in that country was at the mercy of spies, police or Government officials, and this state of things existed when the records of courts show there were few cases of ordinary crime. He then quoted from the statistics of pauperism, emigration and other evils of the country, and declared that it was 'decaying' and its prosperity in despair. Discontent was a word inadequate to express the state of feeling. He made a denial of the statement that the farming classes of Ireland are disloyal. Past cruelties had made this impression on the Irish people. The object of all future laws should be to obliterate these bitter memories. The laws in regard to the tenure of land were defective and operated so disastrously that many tenancies which were good two years

ago were now worthless. He denounced London guild, which hire large tracts of Irish land, for their cruelty to their tenants. Ireland needed no commission of inquiry to establish that. The Church was not suited to the majority of people who dissented from it. After several speeches by other gentlemen, Lord Claiton moved a resolution that the discontent in Ireland is a source of uneasiness to the empire, and must be remedied; that the laws for Ireland should be framed to suit the wishes of the people; that the present Church, school and land tenure system are unjust, and that in the opinion of the commission this cause should be righted. Earl Mayo, Chief Secretary for Ireland, in a long, able speech, admitted the great discontent that prevailed in Ireland, but said it was exclusively nourished by the Irish in America, Australia and Canada. He felt that there was discontent; even in Ireland the feeling was confined to the lower classes, only there were no prominent Feidians in Ireland. He repelled the charge of English misgovernment. The members of the present Government at Dublin were nearly all Irishmen. The police force was composed entirely of natives. He advocated the maintenance of the present policy, but promised that a Bill will soon be introduced for the relief of tenants. The Morning Post says the following is the plan presented by the Government relative to Ireland. First, the consideration of the church question shall be postponed until the Commission of the Irish Church Establishment, already appointed, shall have made their report. Second, another commission shall be appointed to inquire into the relation of landlords and tenants in Ireland. The Irish railroads are to be subsidized by the Government, and to be a general change. G. W. Hunt has been re-elected from Northampton, and will soon bring a bill before Parliament for the purchase of all the telegraph lines in the kingdom. The Prince of Wales is about to visit Ireland, and is to be made a Knight of the Order of St. Patrick. The House of Commons has agreed to report Gladstone's bill for the abolition of church rates. The British War Office has recent additional despatches from Abyssinia. The military situation is unchanged. Rasine is a captive. An official dispatch says it is thought that King Theodore will release all the captives upon the arrival of the British army near headquarters. In the Turkish Cabinet all the Ministers except the Grand Vizier have resigned; successors will be appointed. The Post says the news from Abyssinia sent by special correspondent is unreliable and should be regarded with distrust. A satisfactory arrangement has been made between the Anglo-American and the Atlantic Telegraph Companies. Paris despatches to the 7th state that the forthcoming ministerial budget will press the payment of the principal and interest due France on Mexican bonds. On the 6th, in the Corps Legislatif, the law regulating the press was again under consideration. A clause forbidding private allusions was adopted by a large majority, after a short debate. It passed as amended by only one negative vote.

EASTERN STATES.
(DATE TO 12TH MARCH.)
New York despatches state that a serious riot broke out among the emigrants on Ward's Island, on the morning of the 5th. A bad feeling has for a long time existed between the Germans and Irish, and the latter, seven hundred strong, attacked their enemies, who also put themselves in a sort of battle array. The Irishmen seized pitchforks, clubs, axes, and long poles with sharp iron points, etc. The Germans barricaded themselves in the basement of the Hospital building, and the Irish beat down the doors. A fight was progressing quite fiercely when a strong force of police arrived, and succeeded in quelling the riot. They were compelled to shoot down four belligerents, and eight rioters were wounded more or less seriously; eighty-six were secured and confined. The emigrants are still excited, and declare the fight shall be renewed when the police leave the island. Immense damage has been occasioned by freshets, especially at

THE BRITISH COLUMBIAN

Cleveland, Toledo and throughout Michigan. President Johnson's plan of procedure is given thus:—First; ask for an extension of time. Then object to every Republican Senator who has expressed an opinion regarding the President's guilt or innocence. Second; maintain that Senators from 27 States do not constitute the Senate of the United States, and cannot try the question of Impeachment. Failing on these points, he will firmly refuse to proceed with the trial, asserting that in such a Court justice cannot be had. Then he will rise and send in his resignation and appeal directly to the people to sustain him and pass judgment at the ballot box against the Senate. The World's correspondent gives the details of a conversation with the President on the subject of impeachment during which the President said he should remain to the summons and appear by Council. He said, 'I who have honestly striven as I know how to administer this Government in accordance with the Constitution, and shall be sacrificed along with the constitutional prerogatives of the President's office to the party necessity. Jefferson Davis, the head and front of the rebellion is not brought to trial yet. Congress proposes to try the President at once, and for what kind of offense compared with that of Davis? The country and the Senate may perhaps decide.' The Republican State Convention sustained the House in impeaching of the President; they declare in favor of Grant for President and Henry Wilson for Vice-President. The Democratic resolutions consist of serious charges against the Republican party. They invite the aid of lovers of civil liberty to join in a grand and successful effort to rid the country of such tyrants and secure the triumph of Democratic principles. The Pennsylvania Republican convention passed resolutions instructing delegates to vote as a unit for Grant and Curtin denounced Johnson, insist on protection for native and naturalized citizens abroad. The Senate has confirmed the nomination of J. Ross Brown as Minister of China. The text of new treaty with the North German Confederation is published. According to article one the North German bond covenants to accord Germans who become naturalized citizens of the United States and reside in that country five years the same rights and privileges as native born citizens of the Republic. Article 2nd says naturalized citizens upon return to their native country, remain liable to trial and punishment for actions, punishable by the laws of their original country.

DIDN'T SEE IT.—Punch makes a household address a butcher, 'Oh, Mr. Stockings, I see by the daily papers that the price of meat has fallen two pence a pound. I think you ought to make some reduction in your charges. And the butcher, 'Worry sorry, mum, but we don't take in no daily papers, mum.'

The late Mr. Robert A. Alexander left his property in Scotland, worth \$300,000 per annum, to his sisters, and his farm at Woodburn, Ky., with all the stock, to his brother James with instructions to continue the business of breeding, which was so successfully commenced. His real estate in Chicago is estimated to be worth \$1,000,000.

There has been another anti-rationalistic demonstration at All Saints' church, London. There were 'No Popery' cries, and at last the mob pushed to the altar, tore down the crosses, upset and broke the font.

"WIDELY KNOWN." It is generally supposed that the Websters, Palmers, Cortaschoffs, Metternichs, and Garibaldis of politics are the men of world-wide renown, and so they are where newspapers circulate, not much beyond. One of our friends lately returned from China, amuses us with the recital of his journey inland for some distance, where the enquiry, oft-quest made when he became known as an American, was whether he knew or had ever seen the great chemist of his country, Dr. Ayer, who made the medicines. They use his remedies—many of them have been cured by them and they speak of him as if he occupied the whole of America were at least the great feature of it. A mandarin who had been cured of a malignant ulcer on the hip by his Sarsaparilla, seemed to consider it our principal article of export, and its inventor one of the few men this continent has produced worthy the attention of Chinamen.

SOMETHING NEW.—The well known Publishing House of Harper & Bros. New York have commenced publishing a Weekly Paper of FASHIONS called Harper's Bazaar. ALL OVER

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn, Fervent Lips, Bad Breath, Sour Stomach, etc., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old, are delighted with its effects. The first trial always has a marked good effect.

No change of diet is necessary. Eat all you wish, of the best and most nutritious food.

If the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine of the world. We are not afraid to show what it is composed of.

PHYSICIANS are COMPELLED to recommend it.

CASATI PARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI. King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fetors, Weakness, Constipation, etc.

CASATI PARK, For Diarrhoea, Colic, and diseases of the stomach and bowels.

It cures—The inflammation of the Lungs and Drapical Affections.

CHAMBERLAIN'S PILLS, For constipated digestion.

LAVENDER POWDER, Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN, For Headache, Rheumatism, etc.

ANISE, An aromatic carminative; creating food, muscle and milk; much used by mothers nursing.

Also clove-buds, orange, caraway, elderflower, snake-root, etc.

ST-1860-X.

Another wonderful ingredient of Spanish sauce, imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the common eye of the world, and we withhold its name for the present.

With this recipe before the community, and evidence of effects manifesting them on all sides, a battle of wits and bottles followed with but a single exception. Almost every family has some case of suffering which the PLANTATION BITTERS will alleviate and cure.

Sold by respectable Dealers throughout the habitable globe.

They are recommended by the highest medical authorities, and are warranted to produce an immediate local effect. They are exceedingly agreeable, perfectly pure and reliable.

Notice.—Any person pretending to sell Plantation Bitters, or to put up with the name of a genuine and authentic article, is put up only in our key bottle. Beware of bottles filled with imitation (deleterious stuff) for which several persons are already in prison. See that every bottle has our United States stamp over the cork unimpaired, and our signature on steel plate side label. Sold by respectable Dealers throughout the habitable globe.

MEXICAN MUSTANG LINIMENT.

The merits of this Liniment are well known. Its effects are instantaneous, soothing, and wonderful.

Cuts, bruises, sprains and swellings, are so common, and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLOWING.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Cuts, Bruises, Sprains, or Swellings on horses. Our men have used it for Burns, Bruises, Scabs, Rheumatism, etc., and all say it acts like magic."

Foreman for America, Wells, Fargo & Hardens Express while skating last winter, was entirely cured in one week after the application of your celebrated Mustang Liniment."

Ed. SMITH, Gloucester, Mass., Aug. 1, 1865.

Quick and sure it certainly is. All genuine is wrapped in double paper, bearing the signature of G. W. Westcott, Chemist, the PATENT ALI. St. stamp of DUNN, BARNES & Co., over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Sold by all Druggists and Stores, @ 25 & 50cts. and \$1.

LYON'S FLEA POWDER.

It will destroy all kinds of vermin, with entire satisfaction. It will perfectly destroy everything in the shape of fleas, ticks, beetles, roaches, etc.; that it is perfect poison to the insects, but entirely harmless to the human species—especially domestic animals.

Bolton, Roaches, Ants, etc., are in every house. Wherever it is used it exterminates itself. It is the only EUREKA.

John L. Boud, Esq., Superintendent of the New York City Hospital, says: "It is the only EUREKA."

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts as a powerful purgative, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humors, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diphtheria, Ulcerated Sore Throat and Quinsy.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that those often fatal diseases are now easily cured by these medicines, than when the common cure is resorted to, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the regions of the kidneys, which will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Haemorrhoids, Scrofulous Sores, and Circular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been washed with lukewarm water. The purifying and curative powers of this marvellous ointment have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad legs, or milk fever, its action is wonderful. Glorious cures may soon be reduced by following the printed directions.

The Action of the Heart, Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In these cases, the Ointment and Pills of the Dropsy Cure will ever find success; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the use of the Ointment and Pills invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well rubbed into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; it cures the system, and all ailments. When these complaints are leaving the system, the violence of the complaint frequently seems to increase.

Indigestion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all over the complaining parts twice or three a day, keeping them clean with lye soap and water. The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratis. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted Sore Nipples,	Scrofulous Swellings,
Burns,	Stiff Joints,	Skin Diseases,
Bunions,	Elephantiasis,	Scurvy,

Ayer's

SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR Scrofula and Scrofulous Diseases.

From Emory Edes, a well-known merchant of New York, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blisters, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Danville, Cape May Co., N. J.

"I only do my duty to you and the public when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her face, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Danville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Cape May Co., N. J., manufacturers of cancelled papers in New York, N. Y.

"I had for several years a very troublesome humor on my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could do both as advice and medicine, but without relief whatever until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and soon I was without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

From Dr. R. M. Smith, of New York, N. Y.

"Dr. AYER. I seldom fail to remove Eruptions and Scrofulous Sores by the persevering use of your SARSAPARILLA, and I have just now cured an attack of Malignant Eruptions with it. No alternative was possible, and I am now well and sound as any body."

From Hon. Henry Moore, M. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general debility, and for purifying the blood, with very beneficial results, and feel confidence in recommending it to the afflicted."

From Harvey Sickler, Esq., the able editor of the "Zionist," New York, N. Y.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they covered a large portion of his face, which covered his face, and actually blinded his eyes for some days. A skilful physician applied blisters of silver and other remedies, without apparent effect. For fifteen days we guarded his face, and he was almost blind. We then tried your SARSAPARILLA, and in a few days the pimples began to disappear, and in a few more he was well and sound as any body."

From Dr. Hiram Blood, of St. Louis, Missouri.

"Dr. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for Syphilis, both of the primary and secondary type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know where we can play with more certainty of success, where a powerful alternative is required."

From Mrs. J. Van Lier, of New Brunswick, N. J.

"I had dreadful ulcers on my legs, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved them. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him."

From the well-known and widely-celebrated Dr. Jacob Morrell, of Cincinnati.

"I have found your SARSAPARILLA an excellent alternative in diseases of females. Many cases of Irregularity, Leucorrhoea, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment. A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhoea of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dropsy, and all diseases of the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by
